

edible HAWAIIAN ISLANDS

Celebrating the Harvest of the Aloha State, Season by Season

This is a letter of recommendation for Marta Lane whom I have personally known her since 2007. If you have any questions beyond this letter please contact me.

I first met Marta Lane over the phone. An ocean and plane ride separated us but I always felt her genuine care and concern for our conversations. Finally we met in person several years later where I found her to be warm, intelligent with a good sense of humor.

We had many interests together and she took her interests and created meaningful work for herself and her family. Anyone self-employed on a small island in the middle of the Pacific Ocean for a duration of time would get my recommendation for any work she has decided to pursue. Marta is passionate, creative, professional and always seeking ways to further her education and knowledge.

My publication hired Marta for specific work during the past 4 years. She was hired to write articles, perform social media and volunteer for a non-profit, which we both served as board members. Her care for her community was an example for others to follow.

In closing, I share without hesitation that you will find partnering and working with Marta a pleasure.
